

# **Strong Bandwidth: Creating Solid (Emotional) Connection with Telehealth for Suicide Prevention**

9/17/2025

A Live, Interactive Webinar

---

## **Description:**

This 90-minute webinar will review the use of telehealth when providing suicide prevention-focused care. The training will include coverage of theories of suicide, and research related to telehealth in general. Additionally, the topic of risk assessment, and how this may differ in a virtual environment will be covered. Barriers to implementation via telehealth, and mitigation strategies will also be addressed. Other topics that will be covered include cultural and population-specific considerations when offering telehealth services. AD-E, will be reviewed.

Total CE Credits: 1.5

Total Contact Hours: 1.5

## **Learning Objectives:**

Following the training, attendees will be able to:

1. Identify potential barriers, and solutions for barriers, related to implementation of suicide prevention via telehealth.
2. Identify key aspects of risk assessment, and differences of risk assessment via telehealth vs face to face.

**Target Audience:** For behavioral health providers who treat military personnel, veterans, and their families.
