

# Cognitive Processing Therapy (CPT)

27-28 Aug 2024

A Live, Interactive Webinar

## **Description:**

This intensive 2-day module provides training in CPT, an evidence-based treatment for PTSD. It presents theory underlying CPT, a brief overview of CPT's empirical support, and step-by-step instructions in CPT protocol techniques. Throughout the workshop strategies for conceptualizing and dealing with co-morbidity, managing avoidance, and keeping patients optimally engaged are provided. Video clips of expert therapists demonstrate CPT skills, and participants are asked to do role-plays and other assignments to learn concepts and practice skills. Attendance on both days is required. Participants must acquire a copy of Cognitive Processing Therapy for PTSD: A Comprehensive Manual by Resick et al., Dec 2016 (1st Edition) prior to the workshop. (Weinstein, et al., 2022; Peterson, et al., 2022; LoSavio, et al., 2023)
